Professional Summary

I am a PhD student in mathematics at Centre Borelli — École Normale Paris-Saclay since 2023, under the supervision of Nicolas Vayatis and Argyris Kalogeratos.

I study and design global optimization algorithms, especially those modeled as systems of stochastic differential equations. I am also particularly interested in measure theory and in the formalization of optimization algorithms and their results using the L∃∀N proof assistant. I contribute to Mathlib, its mathematics library.

Publications

1. **Serré, G.**, Kalogeratos, A., & Vayatis, N. (2025). Formal equivalence between global optimization consistency and random search. **ArXiV preprint**.

2. **Serré, G.**, Kalogeratos, A., & Vayatis, N. (2025). Stein Boltzmann Sampling: A Variational Approach for Global Optimization. In **Proceedings of The 28th International Conference on Artificial Intelligence and Statistics** (AISTATS 2025)

3. **Serré, G.**, Beja-Battais, P., Chirrane S., Kalogeratos, A., & Vayatis, N. (2024). LIPO+: Frugal Global Optimization for Lipschitz Functions. In **Proceedings of the 13th Hellenic Conference on Artificial Intelligence** (SETN 2024).

4. **Serré, G.**, Boguslawski, E., Donnot B., Pavão, A., Guyon, I., & Marot, A. (2022). Reinforcement learning for Energies of the future and carbon neutrality: a Challenge Design. **ArXiV preprint**.

Research projects

■ **GOB**. A Python package for Global Optimization Benchmarking. It includes C++ implementations of many algorithms as well as various benchmark functions.

■ **LipoCons**. The L∃∀N formalization associated with the paper *Formal equivalence between global optimization consistency and random search*.

■ **GPEP**. A Python package for Generalized Performance Estimation Problems. Inspired by the PEPit framework, GPEP relaxes linearity constraints on symbolic expressions by using global optimization techniques.

Teaching Experience

2023 - 2026	**Introduction to Statistical Learning**, École Normale Supérieure Paris-Saclay *Professor:* Prof. Nicolas Vayatis Teaching assistant for a course of the M.Sc. Mathématique, Vision, Apprentissage (MVA). Led weekly exercises, and held office hours for a class of 30 students.
2023 - 2026	**Analyse et Convergence**, University of Paris-Saclay *Professor:* Prof. Jacek Graczyk Teaching assistant for undergraduate course. Led weekly exercises, homework assignments, exams correction, and held office hours for a class of 30 students.
2023 - 2026	**Préparation aux oraux de l'École Polytechnique de Paris**, University of Paris-Saclay *Professor:* Prof. Pierre-Yves Le Gall Organized and led weekly preparation sessions for the oral exams of École Polytechnique de Paris. Created practice problems and mock oral exams for a group of 20 students.

Education

2023	**École Normale Supérieure Paris-Saclay**, Gif–Sur–Yvette, FR *Ph.D. in Mathematics*
2022 - 2023	**École Normale Supérieure Paris-Saclay**, Gif–Sur–Yvette, FR *M.Sc. Mathématiques, Vision, Apprentissage (MVA)*
2021	**University of Paris-Saclay**, Gif–Sur–Yvette, FR *M.Sc. in Artificial Intelligence*
2018 - 2021	**University of Paris-Saclay**, Gif–Sur–Yvette, FR *Double B.Sc. Mathematics & Computer Science*

Honors & Awards

2024 | **Winner of the Accenta RL Challenge**, Collège de France
First place in the Accenta Reinforcement Learning Challenge on carbon neutrality, organized by Collège de France and Prof. Stéphane Mallat.
